WESTSIDE TRAIL BRIDGE

2020 Community Survey Results

WHAT DID WE HEAR?

THPRD asked community members how they use the Westside Trail and about their vision for a future pedestrian-bicycle bridge over Highway 26.

Ways respondents typically use the Westside Trail
(multiple answers per respondent)

- 90% Walk/Run
- 69% Bicycle
- 11% Scooter, skateboard, or other recreational use
- 2% Other

Most frequent destinations when using the Westside Trail

1. Recreational activities
2. Errands or shopping
3. Work
4. Social activities or worship
5. School*
6. Other

Would you use the Westside Trail more often if it safely connected across Highway 26?

- 67% Definitely
- 27% Probably
- 6% Probably not
- 0% Definitely not

*School was not being held at on location when this survey was collected

Priorities important in a bicycle/pedestrian bridge design

1. Traffic safety
2. Accessibility
3. Nature & sustainable design
4. Aesthetics
5. Resting places

This project is funded by THPRD's system development charge fund and by Metro's Regional Flexible Fund.
